The Gleichen Call

Devoted to the Up-Building of Gleichen and the Development of the District Generally

Year V, No. G.

GLEICHEN, ALBERTA, THURSDAY, APRIL 27, 1911.

\$1.50 Per Year

The Town Council

The town council meeting Thursday evening last, passed off quietly and in good order, with Mayor Ross in the chair, Al Benson presiding over the meeting and the passing of the previous minutes with little discussion and a motion carried by Al Benson.

The town treasurer advised that the town is in good financial position and the treasury is well filled. The time for receiving tenders for the new water works is at hand. The town is in good financial position and the treasury is well filled.

THE CANADIAN BANK OF COMMERCE

SIR EDMUND WALKER, C.V.O., LL.D., D.C.L., PRESIDENT
ALEXANDER LAIRD, GENERAL MANAGER
CAPITAL - \$10,000,000 REST - \$7,000,000
The Canadian Bank of Commerce will receive deposits of \$1 and upwards, on which interest is allowed at current rates. There is no charge for withdrawing the whole or any portion of the deposit. Small deposits are welcomed.
Accounts may be opened in the names of two or more persons, to be operated by any one of the number or by the survivor. The interest on this kind saves expense in obtaining the ownership of the money after death, and is especially useful when a man desires to provide for his wife, or for others depending upon him, in the event of his death.

boots and shoes and crown lager
quart, pint and whiskey bottles.

Diner—"I say, waiter, what's the
difference between 'sherry' and fine
old sherry?"
Waiter (confidentially)—"Just cob-
webs on the outside of the bottle,
sir!"

Shiloh's Cure

Because his latest play, "The Con-
fession," has brought a death threat
from a man in Montreal, Playwright
Hal Reid has obtained permission to
carry a revolver.

Bickle's Anti-Consumptive Syrup needs
no recommendation. To all who are fa-
miliar with it, it speaks for itself. Years of
use in the treatment of colds and coughs and
all affections of the throat has unques-
tionably established its place among the
very best medicines for such diseases. If
you give it a trial you will not regret it.
You will find it 25 cents well invested.

Counsel for the defendant in a crim-
inal case had made an eloquent
speech, bringing tears to the eyes of
many present in court, but the jury,
composed of hard-headed old country-
men on whose ears oratory and senti-
ment fell like snowflakes on a warm
chimney, were unmoved. Counsel for
the prosecution, rising to reply, took
the measure at a glance.

"Gentlemen," he said, "let it be un-
derstood to begin with that I am not
boring for water!"

For Skin Sufferers

If you, or someone dear
to you, have undergone
the itching, burning,
sleep-destroying tor-
ments of eczema or
other cruel skin erup-
tion and have suffered
from its embarrassing,
unsightly, disfigure-
ment; if you have tried
all manner of treatment,
no matter how harsh,
to no avail, and have
all but given up hope
of cure, you can appre-
ciate what it means to
thousands of skin-tor-
tured sufferers, from in-
fancy to age, when the
first warm bath with
Cuticura Soap and
gentle application of
Cuticura Ointment
brings instant relief,
permits rest and sleep,
and proves the first
step in a speedy and
successful treatment.

THE BROWN DOG.

Removal of Famous Bronze Figure
That Inspired Many Fights.

The famous figure of the brown
dog has been taken from the foun-
tain in Battersea, Eng. It created a
lively sensation while it was there
and was the cause of a great many
encounters between the police and its
friends and enemies. The brown
dog was a bronze and stood on a
granite fountain in a prominent
place. The inscription on the foun-
tain sufficiently explains why the
bronze beast was a source of war and
is as follows:

"In memory of the brown terrier
dog done to death in the laboratory
of the University College in Febru-
ary, 1903, after having endured vivi-
section extending over more than two
months and having been handed over
from one vivisector to another until
death came to its release. Also in
memory of the 232 dogs vivisected at
the same place during the year 1902.
Men and women of England, how
long shall these things last?"

The friends of the young doctors
tried to tear down the figure, the
anti-vivisectionists fought for its
protection, and there was rioting
about the fountain. Also in mem-
ory of the 232 dogs vivisected at the
same place during the year 1902.
Men and women of England, how
long shall these things last?"

"Your husband might have a little
solid food directly he begins to mend,"
said the doctor.

"But how am I to tell?" inquired
the anxious wife.

"The convalescent stages of influ-
enza," replied the doctor, "are mark-
ed by a slight irritability."

The next day he called, and found
his patient's wife radiant.

"When I refused to order him steak
and onions," she explained, "he
came into the kitchen and smashed
fourteen soup plates and a dinner set
vice; so, of course, I sent out for steak
at once."

SPRING IMPURITIES IN THE BLOOD

MAKE THE USE OF A TONIC
MEDICINE A NECESSITY

Dr. Williams' Pink Pills are an all
year round tonic blood-builder, and
nerve-restorer. But they are espe-
cially valuable in the spring when the
system is loaded with impurities as a
result of the indoor life of the long
winter months. There is no other sea-
son when the blood is really so much
in need of purifying and enriching,
and every dose of these Pills helps to
make new, rich, red blood.

In the spring one feels tired and weak—Dr.
Williams' Pink Pills give strength.
In the spring the appetite is often
poor—Dr. Williams' Pink Pills develop
the appetite, tone the stomach
and aid weak digestion. It is in the
spring that poisons in the blood find
an outlet in disfiguring pimples, eruptions
and boils—Dr. Williams' Pink
Pills speedily clear the skin because
they go to the root of the trouble in
the blood. In the spring anæmia, rheu-
matism, neuralgia, and many other
troubles are most persistent because
of poor weak blood, and it is at this
time, when all nature regains life,
that the blood most seriously needs
attention. To improve and fortify the
blood is the special mission of Dr.
Williams' Pink Pills, and that is why
they are the best spring medicine in
existence. If you feel the need of a
medicine this spring give Dr. Will-
iams' Pink Pills a fair trial and you
will rejoice in new health, new
strength and new energy, and will be
especially fitted to stand the torrid
heat which comes a little later.

These Pills are sold by all medicine
dealers or sent by mail at 50 cents
a box, or six boxes for \$2.50 by The
Dr. Williams' Medicine Co., Brock-
ville, Ont.

"I see one of your battleships report-
ed fast in the mud." "Well," I was
just thinking that a ship fast in the
mud ought to be a record-breaker on
the open sea."

Minard's Liniment for sale everywhere

Mrs. Blenkinsop—"Poor man, per-
haps you have seen better days?"
Tramp—"Yes, indeed, lady. I never
tasted such soup as yours before."
Fliegende Blaetter.

These Pills Cure Rheumatism.—To
the many who suffer from rheumatism a
trial of Parment's Vegetable Pills is recom-
mended. They have pronounced action
upon the liver and kidneys and by regu-
lating the action of these organs act as
a cure of uric acid and blood that causes
this painful disorder. They must be
taken according to directions and used
steadily and they will speedily give evi-
dence of their beneficial effects.

Every woman's aim in life is to
boss some man.

I consider MINARD'S LINIMENT
the BEST Liniment in use.
I got my foot badly jammed lately.
I bathed it well with MINARD'S
LINIMENT, and it was as well as
ever next day.

Yours very truly,
T. G. McMULLEN.

"Don't I give you all the money you
need?" her husband complained.
"Yes," she replied, "but you told me
before we were married that you
would give me all I wanted."

A Famous Inn.

The historic house of Cairndow Inn,
Lochynhead, is no longer to be used
as an inn, and general regret is felt
throughout the district that the inhabi-
tants were proud of the ancient house
of refreshment, which has existed for
several centuries. The older part of
the present building formed the inn in
1745, and Prince Charlie took din-
ner in one of the rooms, when he paid
a hurried visit to Ardkinglas, in the
hope that the laird would join his
standard. An old tree stands in the grounds
of Ardkinglas House. Here the Prince
waited, tradition says, while a messen-
ger went to the house, endeavoring to
obtain an audience of the laird.

An Airboat.

The aeroplane is an airboat rather
than a flying machine. The only ac-
tion of the bird that it imitates is the
sense in which a boat floats or a duck
swims. With the duck, however, there
is one difference. It shares the balloon
principle, because its body will not
sink when it stands still, whereas the
aeroplane will fall unless it is con-
stantly urged forward. The duck is
lighter than its bulk of water, as the
balloon is lighter than its own bulk of
air. To call an aeroplane a flying
machine is therefore exactly the same
as to call a boat a swimming machine
(keeping in mind the swimming of
the duck and neglecting that of fishes
and of human beings)

A Popular Ambassador.

Americans like Mr. Bryce, the
British Ambassador at Washington,
who has come in for some criticism
on account of his attitude on the
question of reciprocity between the
States and Canada, because there is
no "side" about him. A visitor called
on him one Sunday morning, and
Mr. Bryce met him in the hall and
begged him to "come this way, where
we can talk undisturbed." He led
the way to the library, and the first
thing he did was to take out a well-
worn tobacco pouch and blackened
briar pipe, which he proceeded to fill
and smoke. Mr. Bryce, although a
diplomat and bookworm, is fairly
"tough." He was the first English-
man to climb Mount Ararat, and has
been president of the Alpine Club.
It was once said of him that "he
walks down Whitehall at the head of
a man who has left a roll of bank-
notes in the smoking room of his
hotel." His knowledge of books is
such that he was once described in
the House of Commons as "a walking
encyclopedia."

POPULAR PICTURES.

Reproductions Have Netted Fortunes
for Publishers.

An artist's lot is not always a
happy one. The late Holman Hunt
struggled for years against adverse
criticism in his effort to simplify,
purify, and beautify British art. At
one time his poverty was so great that
he made up his mind to emigrate to
Canada; but, fortunately, Millais
came to his brother artist's rescue,
and persuaded him to go down into
Surrey and continue his work.

It was here that he painted the
background for his famous picture,
"The Light of the World." For three
months Holman Hunt painted all
night in the open air by the light of
the full moon and a solitary candle,
and during that time he placed upon
the canvas his immortal work. All
over the world "The Light of the World"
was exhibited, and caused a great
sensation. Reproductions sold in
every town and country village.

Its sales up to the present time can-
not fall short of a million pounds.
The original picture was placed in
a chapel at Oxford, but later the
artist spent some weeks in repairing
the damage that had been caused by
neglect. Then he painted a larger
copy, which was hung in St. Pat-
rick's Cathedral.

"The Light of the World" is al-
most, but not quite, the most popular
religious painting in existence. It is
beaten by the wonderful "Head of
Christ," by Max. There is no neck
—just the head. The eyes seem to be
closed, but after gazing at the paint-
ing for some time they appear to
open. It is, of course, merely an
artist's trick, but yet wonderful does
it seem that some people regard it
as a miracle. This is the most popu-
lar of religious paintings, and well
over a million reproductions of it
have been sold.

The picture that beats all records
is that of the Eiffel Tower. In two
years one firm of photographers sold
over 700,000 copies, and at the pres-
ent time there are between 3,000,000
and 4,000,000 scattered about the world.

Compared with this, the sales of
photographs of the Tower Bridge are
quite insignificant, although they
amount to nearly 1,000,000. Strange
to say, Londoners do not buy many
of these pictures. Most of them are
bought by visitors to the Metropoli-
s, and they are then given away.

The historical interest of the Tower
of London always appeals to those
who come to London for a holiday,
and hundreds of thousands of photo-
graphs of the Tower have been car-
ried across the Atlantic to the States.

The sales of it greatly exceed those
of the Tower Bridge, and since photo-
graphy became so popular it is esti-
mated that about 1,200,000 pictures
of the Tower have been produced.

At the small sum of a penny each
this would realize \$25,000, but many
of these were sold for two and three
shillings, and even more.

The sales of photographs of the late
Queen Victoria were simply enor-
mous, and must during her lifetime
have totaled 1,500,000. Thousands of
pounds worth have been sold in the
Colonies and in India, and in one
case a single Australian firm took
over \$25,000 worth in one consign-
ment. The photographs of Queen
Alexandra command a ready sale;
one firm makes over \$5,000 a year
from this source alone.

May Be Result of Her Diet.

For years English women never
ceased to be interested in the secret
of Queen Alexandra's beauty and even
today they cannot quite comprehend
how a woman well past 60—one who
has had her share of grief—can ap-
pear more youthful than many a woman
of 40. It is said that her diet has much
to do with this. Queen Alexandra never
touches red meat. She eats only
chicken, turkey, duck and game. The
vegetables she has served to her are
cabbage, spinach, peas and beans. She
does not eat pudding or pastry and
for dessert has simply fruit, cooked
or uncooked, and nuts and raisins. She
is particularly fond of nuts and has
been known to make an entire lunch-
on of almonds and walnuts dipped in
salt. She eats toast rather than bread
and very little butter, but quantities
of cream.

Her Majesty drinks nothing but hot
milk, having given up tea, coffee, co-
caine and wines years ago. On this
diet with a moderate amount of exer-
cise Queen Alexandra keeps wonder-
fully well and preserves a girlish sym-
metry of figure and wonderful soft-
ness of skin.

Botany Bay.

Sir Joseph Banks was the man who
invented the once familiar phrase
"Botany Bay." He was the botanist
attached to the expedition of Captain
Cook, the "Australian Columbus."

Landing at this bay, close to the pres-
ent city of Sydney, he found such an
abundance of strange plants and
flowers that he associated the word
"botany" with it for all time. For a
long time Botany Bay and Australia
were synonymous in England. Sydney
has spread out to the historic bay,
and you can travel by tram car to
"Botany." It was Sir Joseph Banks
who made the kangaroo and other
Australian animals known to science.
—London Graphic.

A Lasting Flower.

A common South African flower
possesses the valuable property of
keeping fresh for two months or more
after cutting. It is a white Star of
Bethlehem, producing a compact
spike of flowers on a stiff, erect stalk
18 inches to 2 feet long. The flowers
are of a thin and papery tissue, all
white except the yellow anthers. It
can be sent over as a cut flower from
South Africa to Britain, and then
lasts for weeks in water.

A Collector of Medals.

A Yorkshire collector of medals,
Dr. A. A. Payne, Hillyborough, Shef-
field, Eng., has been amassing medals
for over twenty years, and has a
collection of 2,500 worth £26,000. He
has fifty medals that have been con-
nected with either the peerage, baro-
nets or knight-hoods.

HOW TO SAVE MONEY

A Pointer to Housekeepers

Look at the financial side of Zam-
Buk's use. A cut sustained in the
home, the store, or the workshop, a
sore which is untended, results, say,
in festering or blood-poisoning. You
have to lay off for a day or two. What
does that mean when pay day comes
round? Zam-Buk insures you against
that loss! A little Zam-Buk applied
to such an injury prevents all dan-
ger of blood-poisoning, takes out the
smarting and heals.

Heads of families know how costly
doctoring is. Be wise and act on the
preventive line. A box of Zam-Buk
in the home is so all-round useful.

The baby's rash, the older child-
ren's cuts and bruises, the inevitable
burn, cut, or scald—for all these, as
well as for more serious ailments,
such as piles, ulcers, eczema, ring-
worm, etc., Zam-Buk is without a
rival.

Dangers of Shaving.—You get a cut
at the barber's shop. A little Zam-
Buk smeared on the wound prevents
all danger. If any ailment has been
contracted, Zam-Buk cures. Mr.
George Hoblen, 108 Manitoba street,
St. Thomas, Ontario, says: "I con-
tracted barber's rash, and the whole
of my left cheek broke out in one
mass of red, watery pimples and
sores. These spread to the other parts
of my face, until my face and neck
were covered with running sores.
How far the disease would have
spread had it not been for Zam-Buk,
I don't know. I applied this balm,
and in a short time Zam-Buk effected
a complete cure."

Zam-Buk Soap is as good as the
balm, but in a different way. Washed
in Zam-Buk Soap the skin is disin-
fected and disease germs lying upon
it are killed. Mothers will find it
unequalled for baby's bath.

Zam-Buk Balm and Zam-Buk Soap
are sold by all druggists and stores
at 50c. for the balm and 25c. tablet
for the soap.

Changed His Mind

"Clarice, darling," remarked Archi-
bald to the 150 lbs. of sweet feminin-
ity which nestled against his manly
bosom, "now that we are engaged,
my angel, we should have no secrets from
each other."

"No love," she purred.
"Well, then, my sweetest, do please
tell me how old you are."

"With pleasure," cooed the fair
young thing. "But first, dearest,
please tell me just how much you get
a week. I like to often wonder."

Archibald did a bit of rapid head-
work. His mind ran ahead into the
future.

"Forgive me, Clarice, darling," he
exclaimed, as he softly pressed a
chaste salute on her snow-white fore-
head. "It was none of my business to
ask such a question."

The grain, as a unit of measure-
ment, was introduced by Henry III.,
who ordered a grain of wheat gather-
ed from the middle of the head to be
the standard of weight.

"So your debts are bothering you?"
"Working the floor because you can
not pay 'em?"

"No! because I can't make 'em any
larger."

Minard's Liniment relieves Neuralgia

When people begin talking of good
taste, they are merely preparing a
defence for the artificial.

TO CURE A COLD IN ONE DAY
Take LAXATIVE BROMO Quinine
Tablets. Druggists refund money if it
fails to cure. E. W. GROVE'S signa-
ture on each box. 25c.

"Look at the way baby's working
his mouth!" exclaimed Mrs. Newman.
"Now he proposes to put his foot in
it."

"H'm—" replied her husband,
grumpily. "Hereditary. That's what
I did when I proposed."

Shoes that Combine
Both Style and Fit

Few men wear clothes
made, ugly shoes from choice.

They may say that they prefer
to a shoe that is handsome and
stylish, but do they?

Most men wear ugly shoes simply
because they have an idea that
they're the only comfortable shoes
made.

And also because they have never
worn INVICTUS shoes.

We have INVICTUS shoes in the
latest 1910 styles which will fit
every line of your foot easily, com-
fortably and snugly.

Remember the sales of all INVIC-
tus shoes are made of genuine oak
tanned sole leather—the most dur-
able sole leather there is.

Provincial Notes

The official crop report for the
Province of Alberta, which has just
been completed, is not such a dis-
mal affair after all, but, on the con-
trary, it is quite cheerful, and shows
that the province has been tested in
the worst of times and not found
wanting.

Despite the fact that the year was
the worst in the history of the pro-
vince, the average crop was fairly
good. The crops in the south were
poor, but not worse than the crops
in the south of the other provinces,
or in the states across the line.

The average crop in the north
was much better. Altogether, the
average crop was not only greater
than in the other states and provin-
ces, but greater than the average in
the states which are proximate to
Alberta.

The total average yield was as
follows:—

	South	North
Spring wheat	12.65	17.64
Winter wheat	15.48	21.46
Oats	21.68	38.90
Barley	20.79	25.88
Flax	3.02	7.41
Rye	18.60	18.01
Speltz	9.11	23.70

The report, in discussing the dry
year says:—

"Despite the light rainfall during
the growing season, one fact stands
out in an indisputable manner.
Where the land was carefully pre-
pared, i.e., was summer tilled to
conserve the rainfall of the previous
year, excellent yields were obtained.
Under such circumstances as high
as 25 bushels an acre are recorded.
This clearly shows that the lack of
cultivation intelligent method of
the land had an important bearing
on the short crop of last year."

The report proceeds:—

"Not in many years has the win-
ter wheat entered the winter in such
fine condition. The late rains of
the summer were just what was
needed for the newly seeded winter
wheat. The young plants came a-
way nicely, and have made such a
root growth that it will take a lot of
killing weather to do any damage.
It has been well protected during
winter and at the date of writing is
in the most promising condition.
It is estimated from the returns of
the crop correspondents that fully
200,000 acres were seeded last fall.
This is a conservative estimate, as
some competent authorities believe
that there is fully 225,000 acres
seeded.

Below is given the total for the
year:—

Spring wheat	5,697,956
Winter wheat	2,206,551
Oats	12,158,530
Barley	1,889,509
Flax	46,155
Rye	28,306

"Calgary is growing. They say
there isn't another city in America
showing so extraordinary a rate of
increase in population. In 1901 it
was less than 5,000, today it is over
55,000. In 1910 the assessment
was \$30,000,000; this year it is
\$54,000,000. Last year the build-
ing expenditure reached over \$5-
000,000; this year an official esti-
mate is \$12,000,000. The bank
clearings rose from \$98,000,000 in
1909 to \$150,000,000 in 1910. The
customs returns have grown to \$1-
095,000, the inland revenue to
\$408,000, the postal revenue to
\$150,000, the telegraph messages to
nearly 2,000,000. "But perhaps,"
says Clarence A. Owens of Calgary.
"these figures are not absolutely a
new revelation and yet to quote
them is about the easiest and most
direct way of emphasizing the won-
derful development of the west. Do
you know that \$100,000,000 of
money is going to find its way into
the prairie provinces this year? It
is true. The Canadian Northern
Railway spends \$12,000,000; the
Canadian Pacific \$14,000,000; the
Grand Trunk Railway \$17,000,000;
American settlers will bring in
\$100,000,000; the cities will spend
on building operations at least \$50-
000,000; the grain crop is conserva-
tively estimated at \$155,000,000;
and sales will easily reach \$20,000-
000; the live stock trade will reach
\$30,000,000; on the basis of a \$10-
000,000 output of Alberta alone last
year, and I'm taking no account of
the immigration of Eastern Canada
and abroad, none of the mining,
manufacturing and other develop-
ments."

From the preliminary estimate
made of receipts and expenditure
for the year it looks as though Cal-
gary's assessment might be as low
as 1 1/2 mills, and certainly not up
any higher than 15 mills. So far
preliminary estimates have been
prepared calling for an expenditure
of about \$617,000, but there are
some additions to be made to this.
On an assessment of \$52,000,000
the revenue, after deducting for
prompt payment, would bring in a-
bout \$690,000. From other sources
there is an estimated revenue of
\$163,210. This makes a total of a-
bout \$850,000.

**Alberta is Greater Cattle Coun-
try Now Than in Range Days**

Official figures show a tremendous
increase in live stock shipments
from this province. The farmers
are going in for cattle raising and
results are now coming in. The
official figures for the live stock
shipments and Sales of Alberta
since 1905 are:—

1905—Cattle, 83,000; horses,
12,000; sheep, 40,000; hogs, 21-
000; export beef, 49,000.

1906—Cattle, 114,000; horses,
19,000; sheep, 57,000; hogs, 30-
000; export beef, 74,000.

1907—Cattle, 80,000; horses,
11,000; sheep, 28,000; hogs, 29-
000; export beef, 42,000.

1908—Cattle, 98,000; horses,
13,000; sheep, 40,000; hogs, 48-
000; export beef, 61,000.

1909—Cattle, 127,000; horses,
20,000; sheep, 37,000; hogs, 60-
000; export beef, 67,000.

1910—Cattle, 151,000; horses,
26,000; sheep, 60,000; hogs, 50-
000; export beef, 52,000.

**Millions in Flax in This
Province**

F. W. Crandall, of the Develop-
ment Department of the C.P.R.
Irrigation Company, who carried
away the championship prize for the
best crop of winter wheat in the
province last year, from his farm
located three miles north-west of
Gleichen is one authority for the
prediction of a wonderful increase
this year.

"Snow," said Mr. Crandall, "usu-
ally passes with a chinook, and
much of the moisture is lost by
evaporation. This year the snow-
fall has been very great, and the
thawing has occurred gradually,
melting from the under side, and
leaving the moisture in the ground
for the spring cropping. Last year
at this date the land was dry as
powder, and very little moisture
came until August. At present the
ground is wet for a foot down, and
there is abundance of moisture for
the germination of seed, and for
plant growth until the middle of
June. These conditions, coupled
with the large influx of settlers, is
bringing thousands of acres of land
under cultivation. In addition to
the large area already under cultiva-
tion, fallow lands are being sown to
wheat and oats. Fall wheat is com-
ing on splendidly. Conditions are
ideal for barley and flax."

The auto road from Calgary to
Banff is completed, and Dominion
government has granted permission
to autoists to enter Banff National
Park. This will encourage motor-
ists to go on through the beautiful
Columbia Valley.

Mr. and Mrs. J. A. E. Beaupre
are happy in the arrival of a son at
their home on Thursday last, April
20th.

Jas. F. Brown arrived on Thurs-
day last from Liberty, Idaho, to
take charge of the farm he pur-
chased last year, north of Gleichen.

Two horses were found with
saddles on three miles northeast of
town Friday evening, and informa-
tion leading to their recovery will
be given for the sum of \$25. Ad-
dress "Cowboy," Gleichen.

Mrs. F. M. Osbourne of Medicine
Hat has been visiting her brother,
J. L. Laycock. Her many Gleichen
friends are glad to see her
once more.

Over at Hazelton, B.C., there is
a lot of talk over an Indian being
sent to jail for four months because
he had a bottle of whisky concealed
on his person. That is nothing—
here on the prairie—only last week,
seven Indians at Gleichen were sent
to jail for a month each for con-
cealing whisky in their stomachs.

The best of men often do very
foolish things and their enemies
like to see all about it in print.

When a medicine must be given to
young children it should be pleasant to
take. Chamberlain's Cough Remedy is
made from loaf sugar, and the roots
used in its preparation give it a flavor
similar to maple syrup, making it pleas-
ant to take. It has no superior for colds
and whooping cough. For sale by all
dealers.

The work of Nature cannot be
nullified by forms and ceremonies
and that is one reason why matri-
monial laws have caused so much
sin and misery on this planet.

TENDERS
SEALED TENDERS addressed to the under-
signed and marked on the envelope "Ten-
ders for school buildings, Alberta," will be re-
ceived up to noon of May 18, for the construc-
tion of frame boarding school and classroom
buildings on the Sarcee Indian Reserve, and
for a frame boarding school building on the
Blackfoot Indian Reserve, near Gleichen. In
the case of the Sarcee Reserve, one tender
should be presented for both buildings.
Plans and specifications may be seen at the
office of Dominion Lands at Edmonton, Cal-
gary and Macleod, and at the office of the
Indian Agent, Gleichen, or may be had upon
application to the Department of Ottawa.
Each tender must be accompanied by an ac-
cepted cheque on a chartered bank for 10 per
cent of the amount of the tender, made pay-
able to the order of the undersigned, which
will be forfeited if the person or persons ten-
dering decline to enter into a contract when
called upon to do so, or fail to complete the
work contracted for. If the tender is not ac-
cepted, the cheque will be returned.
The lowest or any tender not necessarily
accepted.
The undersigned insertion of this adver-
tisement in any newspaper will not be paid for.

J. D. McLEAN,
Assistant Deputy Secretary,
Department of Indian Affairs,
Ottawa, April 27, 1910

NOTICE TO CREDITORS

IN THE DISTRICT COURT OF THE
DISTRICT OF LETHBRIDGE

IN THE ESTATE OF MARTIN E. O'CONNOR,
DECEASED.

NOTICE is hereby given pursuant to
the order of His Honor Judge Winter dated
25th March, 1910, that all persons having
claims against the estate of Martin E. O'Con-
nor, late of Queensdown, near Gleichen, in
the Province of Alberta, farmer, deceased, who
died on the 17th September, 1906, at the City
of Lethbridge, in the Province of Alberta in-
testate, are required to transmit prepaid to the
undersigned the Trustee and Guardian Com-
pany, Limited, of Calgary, to whom adminis-
tration of the said estate was granted before
said Court on the 26th November, 1909, their
names, addresses and full particulars of their
claims in writing and of any security held by
them (each party to be verified by statutory
declaration) on or before the 8th May,
1910, after which date the administrator will
distribute the estate of the said deceased and
will not be liable for any part thereof to any
person whose claim the administrator shall
not then have received notice.

Dated at Lethbridge this 25th March, 1910

A LITTLE STORY OF IRRIGATION

There were two men who had two adjoining quarter sections in the Canadian Pacific Railroad's Irrigation Block in Southern Alberta; one was a farmer, the other thought he was. They both got up early in the morning, cultivated their ground and planted their crops. The farmer employed irrigation intelligently; the other man trusted to the Lord to send the water along at the right time.

When the harvest came, the farmer took off 40 1-2 bushels of winter wheat to the acre, the other man took his note to the bank to have it renewed. The farmer made enough off his crop to:

1. Pay for the land at \$25 an acre

2. Reimburse himself for the expenditure in connection with cultivation of his land.

3. And to pay for the fences and other improvements on the land.

Irrigation farming is successful farming because it is business farming. You don't have to worry about weather conditions. Your crop is INSURED and your future and independence ASSURED.

Toronto Ladies' Quartette

The concert given by the Toronto Ladies' Quartette, in the Griesbach Hall on Saturday night, was not as largely attended as the talent of the performers merited; however the unbounded approval showered on them by the audience compensated to their artistic temperament to a great degree. From beginning to end the entertainment was one of exceptional high art, and the varied numbers awoke a responsive chord in the musical organ of the whole assemblage. Miss Florence McKay gave, what was probably, the most brilliant interpretation, combined with exquisite touch, of the master works, ever heard in Gleichen, exhibiting a wonderful memorising faculty, and earned the liberal applause bestowed on her. Miss Maud Buschlen and her violin were one in spirit and tone, and we conscientiously believe this artist would still be here entrancing her hearers if the audience had had their way. Miss Nellie Corbett, in a like manner, sang with a purity of tone, clear enunciation, and soulful expression that, alas, is too rarely heard. The old favorite Miss Dixon Craig was the same as ever. It is only those who were present know what the absent ones have missed.

Many a cow is good, just because her owner is good.

In cases of rheumatism relief from pain makes sleep and rest possible. This may be obtained by applying Chamberlain's Liniment. For sale by all dealers.

This year, that giddy young thing called Gentle Spring, seems to be rather slow about changing its clothes.

The riddle of the sphinx may be unfathomable, but anybody can understand the coal riddle at a glance.

"Our baby cries for Chamberlain's Cough Remedy," writes Mrs. L. B. Kenrick, Boston, Wis. "It is the best cough remedy on the market for coughs, colds and croup. For sale by all dealers."

Dairying is a business that must be strictly attended to by the ones interested.

Some men think for their cows; some let the cows think for them. You know which wins the prize.

Now that the butter factory is to be established at Gleichen it will be to the interest of everyone to see it is made a success.

How are the milk cans? Getting some rusty? Let them go and get new ones. Rusty cans are a bad thing from every possible standpoint.

Lame Shoulder is nearly always due to rheumatism of the muscles, and quickly yields to the application of Chamberlain's Liniment. For sale by all dealers.

Dairying to-day is the leading branch of farming, bringing to the farmer the most money and leaving the land in the best possible condition to continue its production.

When we are studying the cow, why not give a thought now and then to the cow's master? He has the making of his herd in his own hands. He can make her or break her. More cows are broken than made.

Diversify a little more this year don't depend too much on any one crop. Then, if misfortune overtakes one crop, the others will bring you through at the end of the year with flying colors.

It was Pope who said that slander stings the brave. The coward seeks to give no offence, and in consequence the serpent of slander seldom spits poison at him unless it is completely out of a job.

A mule, it is said, is never sick but once in his life. This sickness is always followed by a funeral. Two good spans of mules will last fifty years with good care and humane treatment. They are not so fashionable as automobiles, but a heap more profitable.

The world is not devoid of some great souls for the Inland Herald says that the visit of Mrs. Steunenberg, the aged widow of Ex-governor Frank Steunenberg of Idaho, to the cell of Harry Orchard, the confessed murderer of her husband, and her assurance to him of her unreserved forgiveness for the greatest injury he could have done to her, is an example of Christian charity which has few parallels in history. Charity is not only the highest mark of a real Christian spirit but is one of the most rare. It was one thing to entertain such forgiving thoughts; it was manifestly nobler to express them to one who had so cruelly wronged her. The Lord's Prayer must needs mean infinitely more to such a soul after such an utterance.

Sunday last about twenty-six of the brethren of Prairie Lodge No. 41, I.O.O.F., Gleichen, marched to the Methodist Church to attend service commemorating the 92nd anniversary of the lodge. Bro. W. Giddling conducted the service, which was appropriate.

If you have well located land or a good business proposition for sale at reasonable price, write me at once enclosing a self addressed stamped envelope for reply (owners only). Address, J. C. Ross, 818 2nd Avenue So., Minneapolis, Minn.

N. A. Bray returned to town Sunday from Crookston, Minn., and will remain hereabouts for a few days. He was formerly one of the proprietors of the Palace Hotel in Gleichen, but is about to become a "drummer" in mens furnishings, working west from Chicago—a business in which he spent 22 years of his life.

Constipation brings many ailments in its train and is the primary cause of much sickness. Keep your bowels regular, madam, and you will escape many of the ailments to which women are subject. Constipation is a very simple thing, but like many simple things, it may lead to serious consequences. Nature often needs a little assistance, and when Chamberlain's Tablets are given at the first indication, much distress and suffering may be avoided. Sold by all dealers.

A CHAPTER FROM THE ANNALS
OF BRITAIN'S FLEET.

LADY IN BLACK

By GASTON LEROUX.
Author of "The Mystery of the Yellow Room"

CHAPTER VI.

comes a drunkard and for whom an innocent man permits himself to be pro-

truth had not for one moment

story of her youth. Professor Stangeron had raised the form of his beloved child from the ground and had pressed to his lips the forehead of the girl who, tears with the notes of her whose fall had been so bitterly expiated and had sworn that she had never been more precious than after he had known how she had been loved. The girl who had left his presence was another man—a man alone, all alone. Professor Stangeron had lost his daughter and his life.

Obviously she was instinctively drawn toward Routledge by all the mysterious forces of maternal affection, in spite of the fact that she had every reason to believe that her child had been kidnapped and repelled.

She showed for her husband the most charming self-truade. She was as tentative to him at every moment, seeing him herself, and smiling gently at him, as if he were a stranger.

If the dream of Larsen is abandoned

"But where are the Sterniers?" cried Moe. Edith.

"They are installed in the square tower, in the room on the left, we told you," replied Edith, pointing toward the entrance. They are to act as caretakers of the square tower," replied Routledge.

"But the square tower doesn't need any caretakers," exclaimed Edith.

"That's true," returned the young reporter, "is what cannot be said of

The next act of Routeville was to make us walk across the court as place ourselves at the postern which we had been told would lead to the court, but at that point the most have been filled up. Routeville declared that he intended to have the door cut out and to replace the drawbridge.

As for the other prisoners, Routeville had stationed no one, so reserved that place that night himself. From there he could obtain

Readers of "The Mystery of the Yellow Room" will recall that these Berniers—the man and his wife—were the concubines of M. Rougemont at St. Genievre des Bois. I have told how they were introduced to the mystery when they were accused. Rougemont had been ever since the object of their devotion. As the Berniers had need of coverings for the Fort de la Cluse, they had been glad to send them his faithful domestic, a

spread a general sensation of alarm throughout the company. Miss Barzac was very restless. And because Mathilde showed herself to be disturbed and nervous I fancied that Arthur Rance thought that it behooved him to display some little anxiety.

I listened to Roulettable with admiration. Mme. Edith was right. He had indeed constituted himself a captain, and he had no left one impregnable spot without defense.

Roulettable lit his pipe, took three or four puffs and said:

"Well, here we are. Can we hope

The reporter looked at his host with an air of pity which was not entirely free from reproach. And he said to him: "I am sure that, as a Jew, Arthur Hance has little value there in his proposition:

"You ought to understand, monsieur, that I did not save Larsen from the gallows, which awaited him for his crime over to Italian justice at Rochers Rouge."

A COMIC OPERA FIGHT.

live-and-fighter pioneers retreated, but a few miles, to a hill called Chua. In a month's time, says Mrs. Marjorie, the British and the Gurkhas, on a machine, up came a force of 250 Portugez soldiers and 500 natives, under the command of a Portuguese officer; and they occupied Maana Kesi. Not contented with doing this they ordered Heyman and his British soldiers to leave the hill. "But," says Mrs. Marjorie, "any body of regular soldiers in the world, in the face of such

Usually little or nothing has been done on previous occasions in case of attempting to punish the lawless. These are crimes, and the lawless in authority thought in the hearts that two or three convicted men would do the work. But now they may have been convinced that it is to be a case of "good riddance to bad rubbish." Anyhow, it was argued, the lawless are not to be taken into native; unless was worse than the proverbial search after the needle.

Mercury was dropping. The frost-bitten men are troubling Edmond these days. The trail is cold, the nights are long, the snow is deep. The men are beginning to affirm certain phases of western conditions, noticed by a certain literary lady in the recent past in a travelogue in *Edmond* papers, the extreme rigors of the northern temperature this year or the deterioration in the frontier places.

weather." _____ with Mr. Vaux to fight and kill Jarawas. But this, he explained,

Spoons.
The spoon is very ancient, and many fine specimens are in existence that were used by the Egyptians in the seventeenth century. R.S.

Incandescent mantles and incandescent mantle fittings, their success in selling and their failure to sell, were at the Manchester Assizes a year and a half ago.

The plaintiff contended that his business had been hurt, and his customers lost, by some persons claiming that the defendant had, before the

It is not so many years ago that everyone laboriously laced his boots on the morning of a journey, and that of lightning crossing of the laces into the neat little hooks with which the modern lace-boot is provided. The inventor of the hook, H. A. Snipp, sold his patent outright for the sum \$250, and the purchasers are said to have made \$1,000,000 out of it.

But the inventor does not always reap such magnificent rewards for his efforts. In the case of John W. Longridge, the famous engineer who invented the wire-wound gun, for instance, Longridge was a poor man in 1934, and he used all in his power to place it before the authorities, but they would have nothing to do with it. Longridge was a member of the Ordnance Department at Woolwich subjected one of the guns to exhaustive tests, one of his satisfactory

of certain Government officials, and in the end left to starve. This was in 1794. Since that day Great Britain has paid the Government of Ireland an amount of wealth equivalent to £700,000,000, and given constant employment to the Irish workmen for the past four generations.

"Beastly Guy."

General Sir Ian Hamilton, whose book, "Compulsory Service," has

Lieutenant of Ireland, but also a war of ability, whose letters to his mother, Mrs. Alison, have been published in English classics.

The present Lord Chesterfield, who is a very able and successful soldier, and a rising and best-groomed man in society, was treasurer of the King's household in 1924 and captain of the Corporation of Aris in 1926.

In the present he is Lord Steward of His Majesty's Household. In this capacity he is the economic controller of the royal household, and the king's wardrobe, and controls and directs the

round of inspections in Egypt that he was asked how he felt when he returned. "Greatly relieved," he replied. "Greatly funky," was the laconic reply.

Saved Lloyd-George's Life.
Forty-seven years ago a Welsh doctor was called to a little country cottage where a baby boy, a month old, was being nursed by his mother, who had only just lost her husband, was distracted. "Save the child," she begged. "Save the child," he repeated. "Save the child," she begged. "Save the child," he repeated. "Save the child," she begged. "Save the child," he repeated.

A Whistling Oyster. The proprietor of a London chop-house some years ago made fame and fortune by the discovery of a musical oyster. It was a small, thin, pointed shell, which, when struck with a hammer, emitted a loud, shrill, whistling sound, came from a newly-opened barrel of oysters. With eagerness he began to search for such oysters, and at last he found one which seemed to amuse itself by whistling. The innkeeper advertised it, and hundreds came daily to hear it. It lived for a long time in an oyster, in due time the oyster died.

FIGHT OF THE ACTIVE

A CHAPTER FROM THE ANNALS
OF BRITAIN'S FLEET.

Two names of fighting fame have just been added to the modern cruiser roll of the royal navy, in special honor the centenary—a unique event in our naval annals—the dashing frigate battle off Lissa, in the Adriatic, in March, 1811. The Amphion and the Active are the two names, and they are given to commemorate at the same time two of the finest captains who ever trod a British quarter-deck—Sir William Hoste and Sir James Alexander Gordon.

don of the Active, was one of the noblest fellows that ever lived—a typical British man-of-war's man of the best stamp. Passing through every grade of naval rank with distinction, he ended his days as the last Governor of Greenwich Hospital—the last successor in that high post to men such as Rodney and Hood and "Nelson's Hardy."

On March 13, 1811, Hoste and Gordon, in their two ships, with a third frigate—the *Cereberus*, Captain H.

The French came on in two columns of attack, exactly copying Nelson's Trafalgar formation. If numbers, position and formation meant victory, it was theirs. But the British leader was not a Villeneuve, Hoste, as the Frenchmen came bowling down be-

After that, the enemy tried to head off the Amphion and Active, and then double round on their line and get it between two fires. The two squadrons went racing on meanwhile, cannonading hard. But Hoste was again too clever for the enemy. He knew there was a reef under water a little way in front of them, and, before the French could get ahead of him, he manoeuvred so as to make their

colors down to the Active (38 guns); but Captain Gordon "disdain[ing] the parade of taking possession of a beaten enemy" went on after another 40-gun frigate—also bigger than the Active—the Corona. He caught her up, and made her surrender, within gunshot of the shore, just as the general battle was closing.

Egypt has a desert railway which runs forty-five miles in a straight line; but the longest straight piece of railway-line in the world is from Nyngan to Bourke, in New South Wales. This railway runs 126 miles on a level in a dead straight line.

Know This Burglar?

"Had every cent taken last night. Woke up hearing some one in the room. Reached under the pillow for my revolver, but didn't shoot."

"I'd probably be a widower if I had."

TOWN AND DISTRICT

Talk up the Empire Day celebra-
tion.

T. P. McHugh returned Friday
from a three-month visit to Ottawa
and other eastern points.

Thousands of wild geese are flying
about the country now and
many a nice hot goose dinner is re-
ported.

We are sorry to hear that Mr.
Kefcet has had the unfortunate to
have blood poisoning. The severity
of the case necessitating him having
to go to Calgary for treatment to
the hospital where he is pleased
to state he is making excellent prog-
ress.

A good time is assured for the
23th of May in Gleichen.

Visitors to town have been much
amused to see a full-blood Black-
foot squaw wheeling her papoose
about town in a modern baby
carriage the past few days. And
yet some will say that the misad-
ventures and school instructors are not
accomplishing anything.

Gleichen is to be represented at
the convention, Corp. Two-lying
who has been in charge of the B.C.
W. M. P. here since last fall, left
Friday to join the convention of
the force that has been selected
to attend the convention before
leaving a number of his friends
suggested him.

F. H. Harrison, eastern publicity
agent for the C.P.R., of Philadel-
phia, Dr. J. C. Howell, of Vin-
land, N.Y., and Mr. and Mrs.
P. W. Cronhill, of Calgary, spent
a couple of days at Gleichen last
week touring the country north and
visited the In-land lands quite exten-
sively. The two former expressed
themselves as much pleased with
all they saw and will return here
before long.

Friday afternoon, April 28th,
at 4 o'clock the examination of the
Boy Scouts to pass as second-class
scouts will be held in the Gleichen
public school, by the committee.
The lads have made excellent prog-
ress in their studies and it is a con-
sistent expectation that they will all
pass successfully. Parents and all
interested are cordially invited to be
present. All boys who pass are
entitled to their full uniform.

Saturday afternoon last the Boy
Scouts, under the charge of Scout-
master Rev. T. Mitten, journeyed
to the North Camp, where they in-
dusted in luring tactics, preparing
dinner, scouting and signaling.
In the scouting maneuvers No. 2 patrol
managed to elude the search of
No. 1 patrol, and on the return
reversal of positions No. 2 patrol
again proved too busy by capturing
their opponent. A very pleasant
and profitable afternoon was thus
spent and they returned home much
the better for the outing.

The public meeting held Monday
evening to arrange for the accommo-
dation of the visitors at the time
of the sale showed a good deal of
interest in the matter. It was al-
lowed there would be no trouble
for the hotels and restaurants to
feed the crowds, and, therefore, it
was necessary only to supply sleep-
ing accommodation. After some
discussion it was decided to appoint
Messrs. Broderick, Brown and
Johnston a committee to canvass
the town in this respect, and they
report since that they have already
secured accommodation on the outside
of the hotel for over 100 people. It
was also decided that Secretary
Johnston write the Mayor of Cal-
gary with a view to securing the
use of the hotel in the school
during each exhibition at Calgary.
By obtaining there it was pointed
out ample room could be obtained
in Grimsby Hall, the hotel, agri-
cultural building and several other
the use of beds. It was thus
shown that from 700 to 1000 people
could be provided for. Another
meeting will be held when the com-
mittee are prepared to report.
